Verification of Recycle Content for Reflective Insulation and Radiant Barrier Products Manufactured by Fi-Foil Company

The pre-consumer and post-consumer recycled material content of the following Fi-Foil Company products has been verified for the period April 1 to June 30, 2018 by R&D Services, Inc., a third-party testing and inspection service operating in compliance with ISO 17025 (TL-566) and ISO 17020 (AA-712).

Verified Products

AA-2	width 16 inches	(AA-2 Vapor Shield)
AA-2	width 24 inches	(AA-2 Vapor Shield)
VR+	width 16 inches	(VR Plus Shield)
VR+	width 24 inches	(VR Plus Shield)
B-3	width 16 inches	(Silver Shield Radiant Barrier)
B-3	width 24 inches	(Silver Shield Radiant Barrier)
B-3	width 30 inches	(Silver Shield Radiant Barrier)
HYFi	width 16 inches	(Hybrid component)
HYFi	width 24 inches	(Hybrid component)

The verified weight % pre-consumer and post-consumer recycle contents for each of the above nine products are listed in Attachment 1. The recycle content is obtained from pre-consumer content weighted 50% with post-consumer content weighted 100%. The product verifications are based on the recycle content of the components used to produce each product and the confirmation of a balance between incoming materials and manufactured items. Manufacturing and inventory data for the compliance period were provided by Fi-Foil Company on April 26, 2018. The most recent on-site review was completed on October 21, 2016.
